

Why choose Online Doctors?

Proven ROI for efficiency, engagement and productivity

Our *Online Doctors* benefit provides convenient and efficient health care for plan members and their dependents that gives immediate access to licensed Canadian physicians, resulting in less time off work and cost savings for plan sponsors.

65% of *Online Doctors* visits prevent a workplace absence¹

Plan sponsors save thousands of dollars per member annually, thanks to reduced absenteeism.

Did you know? Employees take 2-6 days off per year for physician-related visits and each five-minute visit takes approximately two hours from the workplace.²

98% of employees rate *Online Doctors* services 5 out of 5 stars³

Organizations that use the right tools to promote a health and wellness-focused culture have higher employee satisfaction.

Did you know? 70% of respondents said they would opt for a virtual physician visit if available through their benefit plan⁴

91% of employees have their medical issues fully resolved⁵

Online Doctors encourages early action with accurate diagnosis, true continuity of care and coordinated services.

Did you know? 70% of all illnesses can be treated virtually with no impact on quality of care.⁶

Own the “**great employer**” space

Distinguish yourself in the talent market by offering your plan members a service they can benefit from. It can help prevent long absences due to illness, help manage stress and improve their health management.

Did you know? Only 9% of Canadian firms offer access to virtual care for their employees⁷
