

# Benefit Conversion Options

*You want to make sure that your family is covered, no matter your situation. That's why Blue Cross has options to help you when your employer coverage ends.*

If your coverage ends due to retirement or change in employment or if there is a change in spouse or dependent eligibility status, you and your dependents may submit an application to convert to one of our individual benefit programs.

For information on the available benefits, please contact your Medavie Blue Cross office:

## Life and/or Critical Illness:

A request to convert coverage must be received within 31 days from the date current coverage ends or changes. Life and critical illness conversion is only available to the member and spouse.

Eligibility requirements apply.
